6th International Conference on

Machine Learning & Big Data Analytics

January 18 | 20, 2027

About ICMLBDA 2026

6th ICMLBDA 2026 is a hybrid international conference being hosted by ICS Global in Pune, India on January 18–20, 2027 convening researchers, industry practitioners, and policymakers around cutting-edge work in Machine Learning and Big Data Analytics through keynotes, peer-reviewed tracks, workshops, posters, and demos with a fully supported virtual experience for global access. The event is part of the IAASSE (International Association of Academicians, CA, USA) conference series IAASSE is a nonprofit network that supports scholars and engineers worldwide. The series began at IIT Patna in 2021, continued with the 2nd edition at IIT Patna (2022), the 3rd at NIT Arunachal Pradesh (2023), and the 4th at NIT Kurukshetra (2024), 5th at MES College Marampally (2025) with proceedings published by Springer.

About HOST: ICMLBDA-2026

Idealizeer Content Solutions Pvt. Ltd. (ICS Global) is dedicated to turning knowledge into measurable impact. Founded a decade ago, we operate at the intersection of education, industry, and technology co-creating learning and research experiences that prepare learners for tomorrow’s opportunities while advancing each partner university’s strategic vision.

ICMLBDA-2026

Conference Tracks

Machine Learning & Artificial Intelligence

Supervised and unsupervised learning, deep learning, reinforcement learning, explainable and trustworthy AI, generative AI, computer vision, natural language processing, optimization and real-world AI applications.

Big Data Engineering & Analytics

Big-data architectures, distributed computing, data lakes and warehouses, streaming analytics, cloud and edge analytics, data integration, scalable processing, visualization, data quality and governance.

Data Mining, Knowledge Discovery & Intelligent Systems

Data mining, pattern recognition, knowledge discovery, recommender systems, graph analytics, text and web mining, anomaly detection, predictive modelling and decision support..

Applications, Security & Emerging Technologies

Healthcare, smart cities, finance, industry, education and sustainability applications; privacy-preserving analytics, cybersecurity, IoT data, blockchain, responsible data use and ethical AI.

Important Dates

Events	Dates
Paper Submission	December 08, 2026
Notification of Acceptance	December 20, 2026
Conference Dates & Oral presentation of selected works	January 18–20, 2027
Camera Ready papers	January 05, 2027
Publication (Tentative)	January 2027

Accepted and Presented Papers will be published in SCOPUS Indexed SPRINGER PROMS
